SOUTH MAIN COUNCIL (PRISM)

309 South Main Street  
Middletown, OH 45042

March 21, 1978

Mr. R. V. Moschell  
Director of Public Utilities  
City of Middletown  
City Centre Plaza  
Middletown, OH 45042

Dear Mr. Moschell:

Re: Your letter January 4, 1978

We the members of the South Main Council (Prism) wish to thank you on your decision which allows us to paint the fire hydrants in the South Main Historic Area. It takes people working together as you have to make Middletown a better place to live.

Below is a list of the fire hydrant locations which are to be painted. They will have the barrel painted Red (Dupont paint 93-674), the caps and dome will be painted yellow (Dupont paint 93-76556). There will also be the reflective band around the dome.

- Locations:                    37 South Main Street
- 70 South Main Street
- 201 South Main Street
- 221 South Main Street
- 309 South Main Street
- 400 South Main Street
- 405 South Main Street
- 601 South Main Street
- 614 South Main Street
- 220 Yankee Road

Our group will supply the paint and will be painting the hydrants as soon as weather permits. We also believe that since we will be doing the work for the initial changeover, the City could provide upkeep in the future.

We will be waiting for approval of this letter before starting work on the hydrants. We would also appreciate your decision on upkeep in the future.

Sincerely,

*David T. Smith*

David T. Smith  
Director of Public Works Committee
